LT - 1007 - 2016

13 July 2016

Dear Sirs:

The Philippine Embassy in Bangkok transmits a copy of an announcement on finding prospective bidders for Supply of Bituminous or Sub-Bituminous Coal For 800 MW Krabi Coal Fired Thermal Power Plant Project from the Electric Generating Authority of Thailand (EGAT) dated 30 June 2016.

Your Office may wish to disseminate the information within your network.

Further, the Department would appreciate being apprised of any submitted bid(s), for monitoring and assistance needed.

Thank you.

Very truly yours,

Handwritten signature of Leo M. Herrera-Lim in black ink.

ANNOUNCEMENT
ON
FINDING PROSPECTIVE BIDDERS
FOR
SUPPLY OF BITUMINOUS OR SUB-BITUMINOUS COAL
FOR 800 MW KRABI COAL FIRED THERMAL POWER PLANT PROJECT

The Electricity Generating Authority of Thailand (EGAT) plans to invite sealed bids of supply and transportation of bituminous or sub-bituminous coal for its proposed 800 MW (net) coal-fired power plant. The main coal quality specifications are required as the table below:

Parameter	Units	Required Values
Gross Calorific Value (Gross, as-received)	kcal per kg	4,900 – 6,060
Total Sulfur (as received)	% by weight	≤ 1
Total Ash (as received)	% by weight	≤ 15.8
Total Moisture (as received)	% by weight	≤ 30
Volatile Matter (as received)	% by weight	26 - 42
Fixed Carbon (as received)	% by weight	33 - 55
Hardgrove Index	HGI	45 - 60

- Note :
1. Gross Calorific Value proposed by Bidder shall be ± 300 kcal/kg, gar from the Typical Gross Calorific Value (GCV_{TYP}) proposed by Bidder.
 2. Annual weighted average Gross Calorific Value of Coal delivered during the Delivery Year shall not lower than Typical Gross Calorific Value (GCV_{TYP}) proposed by Bidder.
 3. Annual weighted average ash content of Coal delivered during the Delivery Year shall not exceed 10% ar.

The coal quantity requirement is approximately 2.7 million tons per year which is supplied by one single supplier for the 15-year contract period from the commercial operation date of the power plant. The purchasing term of coal is "**Delivered at Place**" (DAP) in accordance with Incoterms® 2010 with the place of delivery being the Ban Khlong Rua Port, Krabi Province, Thailand.

The vessel required for coal transportation shall be bulk carrier with hydraulic or electric powered hatch cover, dead weight corresponding of 10,000 DWT, maximum dimensions of 120 meters LOA, 30 meters outside width (beam) and 11.5 meters keel to top of hatch covering (depth), and no more than twenty-five (25) years old with the age being the period from the month when construction of the vessel was completed through the last day of the delivery for EGAT.

2. Experience Record

Please mark your Experience Record as follows:

- Have sold coal under the Coal Supply and Transportation Agreement(s) (CSTA) or the Coal Supply Agreement(s) (CSA) with the total supply of not less than 2 million tonnes of coal to overseas country for each of the past three (3) years.
- Have arranged and managed the overseas transportation of coal by sea vessel for the amount of not less than two (2) million tonnes for each of the past three (3) years.
- possess the legal right to mine and/or market coal from at least two (2) coal mines, having proved reserves complied with JORC Code or equivalent, of not less than thirty (30) million Tonnes each.

3. EGAT's Rights to Reserve

- 3.1 The announcement on Finding Prospective Bidders is for information ONLY. EGAT intends to collect information from persons who are interested in EGAT's invitation for sealed bids for supply and transportation of imported coal for EGAT's 800 MW (net) coal-fired power plant, which will be announced later.
- 3.2 The announcement and the Finding shall not be treated as a part of the bidding process for the supply and transportation of imported coal and EGAT does not bind itself for the result of the Finding. All costs incurred directly or indirectly on the part of the interested persons in the Finding process including all expenses, losses and damages shall not be claimed from EGAT.
