# QUALITY POLICY

We provide quality services to the satisfaction of our customers through adherence to regulatory and statutory requirements, and by employing the best industry practices.

Our activities and related resources are managed as a process and our decisions and actions are based on analysis of factual data and information.

We continually improve our quality management system to attain corporate goals and objectives by:

- providing dynamic leadership
- engaging all our competent personnel, and
- interactively collaborating with our interested parties

Approved:
